### **The Purebred Dairy Cattle Association Show Ring Code of Ethics**

(Adopted by PDCA in March 1970; Revised March 1971, February 1977, February 1982, February 1986, February 1988, and February 1989)

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the various dairy breed associations to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, The Purebred Dairy Cattle Association believes that it is in the best interest of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in the proper care and management of dairy cattle which are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being fraudulent and/or unethical in the showing of registered dairy cattle:

1. Misrepresenting the age and/or milking status of the animal for the class for which it is shown.
2. Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, or other substance to artificially improve the conformation.
3. Surgery or insertion of foreign material under the skin, performed to change the natural contour or appearance of the animal's body, though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.
5. Setting Teats.

The following practices and procedures are considered to detract from the image of the show ring when carried to excess and will be given slight to serious discrimination in placing animals within class.

1. Excessive manipulation of the hair.
2. Use of artificial hair except for false switches.
3. Unsportsmanlike conduct on part of showmen.
4. Improper fitting practices such as over filling and over bagging.

Practices which should be encouraged to enhance the image of the show:

1. Establish uniform dress code for exhibitors in the show ring.
2. Recognize good herdsmanship and exhibits in the barn.

In keeping with the basic philosophy of the PDCA, ethics are an individual responsibility of the owner of each animal shown. Violations of these policies are subject to disciplinary provisions of the appropriate dairy breed association and/or show management.

#### **Holstein Show Ring Policy**

The showing of Registered Holstein cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the Holstein Association of America to stimulate and sustain interest in breeding Registered Holstein cattle. This relates to both spectators and exhibitors. In this connection, the Board of Directors of the Holstein Association of America believes that it is in the best interest of the breeders of Registered Holstein cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in the proper care and management of dairy cattle which are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices are considered unacceptable and defined as being fraudulent and/or unethical in the showing of Registered Holstein cattle:

1. Setting teats or manipulating a teat to alter its normal position such as to unnaturally hold it plumb or to alter its length.
2. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
3. Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, or other substance to artificially improve the conformation.
4. Surgery or insertion of foreign material under the skin, performed to change the natural contour or appearance of the animal's body, though not to preclude practices required or involved in normal management.
5. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.

The following practices and procedures are considered to detract from the image of the show ring when carried to excess and will be given slight to serious discrimination in placing animals within class.

1. Excessive manipulation of the hair.
2. Use of artificial hair except for false switches.
3. Unsportsmanlike conduct on part of showmen.
4. Improper fitting practices such as over filling and over bagging.

Practices which should be encouraged to enhance the image of the show:

1. Establish uniform dress code for exhibitors in the show ring.
2. Recognize good herdsmanship and exhibits in the barn.

In keeping with the basic philosophy of the Association, ethics are an individual responsibility of the owner of each animal shown. Violations of these policies are subject to disciplinary provisions of the Association's By-laws.
